DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on September 17, 1999. It is noted, however, that applicant has not filed a certified copy of the Japanese application as required by 35 U.S.C. 119(b), nor has the International Bureau forwarded a copy.

Information Disclosure Statement

2. The information disclosure statement filed May 17, 2001 has been considered. Please see the attached initialed PTO-1449. Reference AL was lined through because it is already cited on an 892 and reference AM is lined through because it was not considered since it is in Japanese.

Allowable Subject Matter

3. Claim 1 is allowed for the following reason: the closest prior art is Cao et al. (Reference AN on the 1449) who disclose a sequence having 99.5 percent identity to SEQ ID No. 2, the sequences differ by two mismatched nucleotides. Since the exact sequence claimed is not found, and there would be insufficient motivation for one of

Art Unit: 1653

ordinary skill in the art to modify the sequence of Cao et al to be identical to SEQ ID No. 2, claim 1 is allowable.

4. This application is in condition for allowance except for the presence of claims 2-12 to an invention non-elected without traverse in Paper No. 10302003. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

Should applicant submit process claims of the same scope as the allowed claim such claims would be considered.
